

Specially Priced Compilation of

**ASTM STANDARDS FOR  
BUILDING LIME AND LIME-BASED  
CONSTRUCTION APPLICATIONS**

The *ASTM Standards for Building Lime and Lime-Based Construction Applications* (March 2005) is a compilation of over 100 ASTM standards providing guidance for the use of lime in a wide variety of applications. These standards are vital to the construction industry and essential to the quality of lime products. Also included are test methods and formulations for their use in construction. The standards included in this volume cover:

- Building Lime Standards
- General Lime Testing
- Other Test Procedures
- Mortar
- Mortar Test Procedures
- Stucco
- Plaster
- Masonry Units
- Soil Treatment
- Asphalt

The *ASTM Standards for Building Lime and Lime-Based Construction Applications* (March 2005) provides a valuable resource for architects, contractors, engineers, specifiers, inspectors, and educators.
